Is there a minimum order with Staples?

NPP has established a minimum order of \$30. This minimum was implemented to consolidate orders and improve operational efficiencies for program savings.

To assist you in consolidating orders and making sure you meet this minimum, Staples Advantage has listed five tips to make this easy for you.

- **Order once a week:** Determine how much of each item is needed to carry you through a full week. Use up any present supplies of each item until more items are needed at the end of the week.
- **Anticipate projects and events:** Anticipate projects, proposals and events that require special or additional quantities of office products that are normally stocked. Ordering in advance will save you time and frustration.
- **Group orders:** Whenever possible, consolidate orders with your coworkers. Pick a time of the day/week to place orders and remind coworkers of your deadline.
- **Save money:** Consolidating your smaller orders into fewer larger ones saves our company time and money.

How often should I place orders?

To continuously maintain cost effective office products, StaplesLink.com users should order efficiently by eliminating small orders, except in the case of an emergency.

- Consolidate smaller or multiple orders into larger orders
- Plan ahead to avoid last minute purchases
- Use the Shopping List for easy access to frequently ordered items

In order to obtain our savings, payment may be made with a valid credit card or corporate purchasing card. Invoicing may be available as an additional option.
